

Demolition and Construction Work Starting Soon !!

2 and 3 bedroomed high quality homes for affordable rent - owned by the Strathglass Community for the people of Strathglass

W Elevation

After almost 3 years of negotiations and fund raising construction work is about to commence on 2 new community owned houses for affordable rent in Cannich.

The derelict GP Surgery and Nurses House will soon be demolished to make way for 2 high quality affordable houses. The new 2 and 3 bed roomed homes will be owned by the Strathglass and Affric Community Company on behalf of the people of Strathglass and the houses will be offered at affordable rent for many generations to come helping people to stay in and contribute to our fantastic Community.

Local Company MC Builders will undertake the construction of the 2 new houses and completion is anticipated in Autumn 2021 with hopefully new residents immediately thereafter.

The project has been led by Strathglass & Affric Community Company, with project management and development support provided from the Communities Housing Trust.

We have received funds from lots of different people to help us purchase the property and land from NHS Highland and SSE and to build the houses. We are so very grateful to all the funders who have made this project possible including the Scottish Government's Rural & Island Housing Fund, The Scottish Land Fund, Siorbheas, Strathglass Community Fund, SSE Developing Communities Fund, The Highland Council and the Quaker Housing Trust.

The management and letting of the homes will also be led by the Strathglass and Affric Community Company supported by the Communities Housing Trust and if you are interested in living in one of the houses then please register your interest here

<https://www.chtrust.co.uk/future-opportunities.html>

Strathglass will become one of only a few communities in Scotland who are tackling the shortage of affordable rented accommodation by building their own and we should all be very proud of what our little community has achieved so far.
